## Profile

I am Vagish Gupta , a passionate student currently pursuing a Bachelor of Computer Applications from Vivekananda Institute of Professional Studies. Working in the tech industry as a Full Stack Web Developer, I am keen on learning problem-solving techniques and understanding how various technologies work. My expertise spans both front-end and back-end development, including HTML, CSS, JavaScript, React, Node.js, and Python. I am dedicated to creating innovative and high-quality solutions, with a strong focus on developing responsive and user-friendly web applications.

## Professional Experience

- Pexilim** 04/2024 – present  
*Full Stack Web Developer* Delhi, India
- At Pexilim, I specialize in developing a Software as a Service (SaaS)  product, focusing on frontend development and seamless backend integration to manage high loads effectively. My goal is to deliver robust solutions that ensure optimal user experience and performance.
- Vivekananda Institute of Professional Studies** 03/2024 – present  
*Full Stack Web Developer* Delhi, India
- At VIPS, my primary role involves developing in-house websites to support various college functions and maintaining vips.edu. I am dedicated to creating user-friendly and efficient web solutions that cater to the needs of the college community.
- ACE- Association of Computer Enthusiasts** 09/2023 – present  
*Web Developer Member* Delhi, India

## Education

- Bachelor of Computer Applications ( BCA )** 10/2022 – 09/2025

- CGPA: 8.5
- All India Senior School Certificate Examination** 04/2022  
*Maharaja Agrasen Model School* Delhi, India
- CGPA: 9.0

## Skills

## Projects

---

### **Full Stack Netflix Clone**

- I created a full-stack Netflix clone using Next.js and MongoDB, integrating it with an anime API. Users can log in and enjoy ad-free anime content with the familiar UI/UX of Netflix. My focus is on innovative solutions and leveraging technology to enhance user experience.

### **Kosha - Requisition Website**

12/2023 – 02/2024

- Kosha is a college website developed with Firebase and React.js. It enables faculty to request items and officers to approve them, simplifying administrative processes.
